MAGNA M-TERRAIN

EARTHMOVER

MAGNA TYRES develops and manufactures high quality tyres for construction and mining purposes, especially designed for the most severe applications.

MAGNA M-TERRAIN is designed for articulated dump trucks in challenging off-road conditions.

Side wall protection and flotation are enhanced by the wide shoulder design.

The tread compound provides excellent performance against cutting and abrasion.

Improved traction and performance through non-directional tread design.

All steel radial construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.
